SUPERVISED GRADING INSPECTION CERTIFICATE

SECTION A: Rough Grading Certification by Soils Engineer

I certify that the earth fills placed on the following lots were installed upon competent and properly prepared base material and compacted in compliance with requirements of the Uniform Building Code (UBC), latest Edition. I further certify that where the report of an Engineering Geologist relative to this site, have recommended the installation of stabilization measures, such earthwork construction has been completed in accordance with the approved design.

Lot Numbers:

Report Date: for compaction test data, recommended allowable soil bearing values and other special recommendations.

Remarks:

Engineer: Signature: Reg No: Date:

SECTION B: Rough Grading Certification by Supervising Grading Engineer

I certify to the satisfactory completion of rough grading including: grading to approximate final elevations; property lines located and staked; cut and fill slopes correctly graded and located in accordance with the approved design; swales and terraces graded ready for paving; berms installed; and required drainage slopes provided on the building pads. I further certify that where report(s) of an Engineering Geologist and/or Soils Engineer have been prepared relative to this site, the recommendations contained in such reports have been followed in the prosecution of the work.

Lot Numbers: Remarks:

Engineer: Signature: Reg No: Date:

SECTION C: Final Grading Certification

I certify to the satisfactory completion of grading in accordance with the approved plans. All required drainage devices have been installed; slope planting established and irrigation systems provided (where required); and adequate provisions have been made for drainage of surface waters from each building site. The recommendations of the Soils Engineer and/or Engineering Geologist (if such persons were employed) have been incorporated in the work.
